

AIR/HYDRAULIC DEVICES

HR-1

DESCRIPTION

The HR-1 Hydraulic Relay Valve is designed for use on hydraulic braked straight trucks that incorporate a separate and independent spring actuated parking brake system. It functions as a control point that reduces and directs hydraulic pump pressure to and from spring actuated parking brakes.

WEIGHT: 2.375 LBS.

VMRS. NO.: 13-010-015

DEVICE CODE: 4550
